

# Destroy the Capitalist System

---

## Friend-

It's time to destroy the capitalist system. In southwest Montana, that system looks like people trying to figure out how they are going to pay their rent while Big Sky Resort charges \$250 for a ski lift ticket. The capitalist system looks like our Gallatin River flowing green with algae while the latest \$40 million vacation house is built in Yellowstone Club. **The capitalist system looks like the Montana Legislature passing bills that protect the fossil fuel industry and prevent local governments from protecting its residents from plastic pollution. Enough is enough.**
